THE BARTLETT MOVEMENT. The Bartlett movement originated in

a spontaneous determination on the part. of the tax-paying people of Shelby to inciplency to the close of the canvass on Thursday last, the press supported the movement with a zeal that never tired. The movement originated with the people. It is true a little coterie held darklantern meetings, and assumed the role of leaders, but they had no more to do with the movement than the fly seated on the wheel of a chariot has to do with the cloud of dust which follows the march of the vehicle. The Bartlett movement emanated from a tax ridden people, auxious to save themselves from irretrievable ruin. It was intended to embrace Democrats and Conservatives, and all who looked with alarm upon Radical ascendancy, as that party and ruined wherever it ruled. Such a movement, broad in its views, and embracing every element of success, is a far different thing from the little popinjays who organized a select tea-party, formed themselves lute a ring, and solemnly decided who should be taken into the ring and who should be excluded from its hallowed circle. When the bee, buzzing at the tail of the comet, saw the upturned sea of guzing faces, it proudly exclaimed, " Mr. Comet, what a sensation we are creating below;" and when the little ring saw the press and the people were pushing forward an enterprize which had the enthusiastic support of every patriot in Shelby county, they ceased to issue tickets of invitation to their select toa-party, or bulls of excommunication against those who were working for the movement while they were sleeping are seeking pleasure. The Bartlett movement originated with the tax-paying meat originated with the tax-paying this mass mention which it is more incommunication of that appointed at Bartlett, which resigns to day. It is brazen impudence for any one man or set of men to claim the paternity and direction of a great popular movement, the origin of whose strength was the deep-scated conviction that the public arises to a Democratic convention and it is essential to success that it should receive the hearty support of every man who favors good government, and who would not countenance the ascendancy or success of black Republicanism. It is a mass-meeting called to elect delegate to a Democratic convention and all the scients from their number a rub-committee composed of seven members, to be known as the executive bond of the committee of Shelby county, clothed with full powers to call meetings for the election or nomination of caudi-dates, to appoint necessary district or ward committees, to fill vacancies in their own body, and to do and perform deep-seated conviction that the public necessity demanded that only those should be chosen as candidates whom they knew to be thoroughly imbued with the spirit which animates them and capable of giving it voice. German interference

The Burder of the German Correspond ent, Schmidt-Religion, Education and Science-Free Pardon

NEW YORK, August 10,—A correspondent of the New York Herald, interviewed Don Carlos at Elerria, on August 4th. Don Carlos said: "We are always glad at seeing a correspondent who is willing to tell the trun. We have faults, but accept the responsibility of our own actions. Our cause is so good that we do not tear daylight. Our enemies spread false news and actionsly and persistently because we do no possess the means of giving the truth publicity, therefore we give honest armalists the opportunity to gather vidence of the absurd stories that are onled of Carlist attrocities."

H reupon the correspondent said he hoped he would not meet the fate of Captain Schmidt.

Don Carlos—There is no danger.

Don Carlos—There is no danger. Captain Schmidt was arrested under most suspicious circumstances. He was tried by court-martial, found guilty and executed as a spy, never-the-less I regret very much that my order to spare his life was received too late.

Correspondent—Does his majesty apprehend any danger of a German intervention on account of the execution?

NEW YORK, August 10.-A letter vention on account of the execution?

Don Carlos-Not the least. Germany from Berlin on the attempted assassina-tion of Bismarek by Kul_iman contains is aware that a foreigner throwing him-self in the midst of interpretine con-flict is exposed to its risks and perils. flict is exposed to its risks and perils. While deeply regretting that the reprieve was received too late, the Spaniards strongly dislike interference in their affairs. Intervention would result in favor of me. Then Spain would only have one army, with Don Carlos its chief. Spain has been impoverished by war, revolutions and changes of government, and it requires my whole life to restore her to the degree of prosperity which I wish her to possess. The only means to accomplish this is by a long, fruitful season of tranquility, devoted to cultivating the arts of peace and consolidating and establishing the finances and credit of the government, and thus private dwelling of Christopher Joseph Crement, acting editor of the Berlin Germania, was searched by the police. who confiscated his letters, manuscripts and some pamphlets. The cortes, which should reflect the feelings, interests, wishes and senti-

feclings, interests, wishes and sentiments of the people, ought not to be a mere body of factions politicians, alike powerless for good and strong for evil, promulgating doctrines for the overthrow of society and ending with harricades. I wish Spain to manch onward to pregress and enlightenment, and not remain behind her sister nations in science and education, without which Spain will be outstripped in the race for wealth and prosperity; but something is radically wrong in the modern current of the thought and system of education. The world is rushing into gress materialism and unbelief, which, unless checked, must end in the extinction of the human race, the fault thereof being the modern godless system of education, and modern methods of investigation. To day's savants and since Bismarck doss not drive until one o'clock, he had some hours to spare, which he spent is walking up and down which be spent in front of the prince's house. CLARKSVILLE, TENN, August week Since the county election of last week Clarksville has been uninteresting to those of loquacious propensities. Chattanooga, August S.—I arrived at this place this morning after a short trip into Georgia, and was gratified beyond measure to see "victory" at the head of your columns in the issue of the seventh instant. Allow me to add my congratulations to the thousands which have been heaped upon the Appeal for its cavnest and arduous labors in behalf of the white man's ticket. At last old Shelby is free indeed, and has shaken off the foul spell of nogrammery with which Radicalism has so long bound her. Chattanoogt ulthough a town of some importance previous to the war, may be said to have been built since 1867. Up to that time the tuniness houses were small and ill-constructed; but after a destructive fire, which occurred in that year, destroying some for the propose of the said to the year, destroying some for the propose of the said to the flames. The value of the yearly grain crop which is shipped from this place is estimated at three million dollars. But the greatest and most important interest of Chettanooga is that which rests upon a very solid, firm foundation—iron. The furnaces and rolling-mills were fast becoming the most extensive and profitable in the south until the panic, which stopped all except one, and has prevented the relatingling of their fires from that time. I am told that these iron manufactories am told that these iron manufactories employed upward of one thousand five hundred operatives. Another Female Mousier and Brute-Mer Victims and their Remains.

Sr. Leuis, August 10.—Another hor-for has come to light here involving per-haps the lives of several persons and a number of infants. Madame Fortin-meyor, a midwife residing at 18; Morgan street, was arrested yesterday on the charge of committing an abouton upon the body of a young motato gri named Lens Milier, who was found dead in her house. Another young woman was found lying very sick and in great pain and was removed to the heanits. yearly receive from abroad and spend at home nearly a million of dollars. Chattanooga is a progressive place, however, and will seen recover from her apparently quiescent state. In fact, I think it may safely be predicted that ere the lapse of many years the will become the metropolis of the eastern, as is Memphis of the western portion of Tennessee. Stanton's railroad is building, as Hichard Grant White would have us say, and slowly, too, but will eventually accomplish for Chattanooga with the Memphis and Knoxville railroad is expected to do for Memphis. The citizens of Chattanooga, while laying the foundations of substantial business nuccess, in the erection of suitable edifices, have also found time to beautify their city

THE PAT ROGERS.

CINCINNATI, August 0 .- A conflict and catfusion of statements have up to the present characterized the reports of the number of persons lost by the steam or Pat Cleburne calamity at Aurora. To day Captain Dan Morron, who is at the day Captain Dan Nerron who is at the scene of the wreck superintending the recovery of balics, says that forty-five have been recovered, of whom lifteen had not been clearly identified. Such have been necurally described, buried, and graves marked for the benefit of friends seeking them. Two others, Jake Like the steward, and Zimmerman the Life, the steward, and Zimmerman, the pantryman of the boat, have not yet occu recovered. This makes forty-seven known to be lost. It is barely possible that the list may run up three or four more, but it is not probable. The work of wrecking continues. The safe of the steamer has been found, but the passenger list loss evidently been burned. The difficulty heretofors in making an exact list of the lost has been owing to the fact fifteen miles along the river, many of them not being identified, and many therefore have been counted twice, caus-ing the less to be reported as high as The towboat Sam Roberts, which blaw up and burned last Friday, on Guyan shoals, occasioned the loss of three fives.
All of the wounded will recover.

BOLIVAR, August 6 .- As a book assent I am here, there and elsewhere, talking, seeing and observing—and as an occasional correspondent, I will now rise to report. Crojs are falling off wonderfuily for the want of rain. "Times are hard," distressingly hard throughout the whole of the western district. The the whole of the western district. The corn crop, once so very flattering, is hearly rulned, Drought everywhere, Farmers long-faced and disponding. Rain everywhere looked for, but nowhere appearing in quartities sufficient to remove the depression. Between Radicalism and the drought the farming interest looks gloomy enough. Well, to drive off the blues on Monday, the thirst, I concluded to see what was going on in Belivar, "annessee—where, I was told, our aprist friends were holding their as, ation ("the Big Hatchie," I believe., found Dr. J.
